Guidance Note for applicants

Please read these guidelines carefully before you register. You will find here all the necessary information that will help you fill in the sections in the application form correctly and describe your activities successfully.

BASIC INFO

Language: Applicants are encouraged to submit their project proposal in English, in order to facilitate the treatment of the proposals and speed up the evaluation process. It should be noted, however, that proposals submitted in any of the **EU official languages**¹ will be accepted.

Mode of delivery of applications: via the online tool²

Deadline: 10 September 2024, 23:59 CEST

HOW TO FILL IN THE APPLICATION

Your application should be as clear and precise as possible so the national and European jury will be able to appreciate your efforts in the area of accessibility. Please focus on **facts and numbers**. Give **examples**, including **qualitative and quantitative data**. Make sure that you have **clearly presented** your **approach and strategy** with regards to accessibility and that you have underlined all **innovative and extraordinary activities** that led you to success in this field. Indicate the timeframe of the activities: when they were launched and what the future developments will be.

The indicated maximum number of characters available for each reply includes spaces.

- 1 The EU has 24 official languages: Bulgarian, Croatian, Czech, Danish, Dutch, English, Estonian, Finnish, French, German, Greek, Hungarian, Irish, Italian, Latvian, Lithuanian, Maltese, Polish, Portuguese, Romanian, Slovak, Slovenian, Spanish and Swedish.
- 2 The online tool is accessible via the Access City Award website: <https://ec.europa.eu/social/main.jsp?catId=1141>

A / CITY IDENTITY

Short description of city

Include here some basic information about your city, its morphology and history insofar as these aspects can have an impact on accessibility (for instance whether it is built on hilly ground, or has a medieval centre with narrow streets and hurdles difficult to overcome for wheelchair users or visually impaired persons).

B / SCOPE OF THE INITIATIVES

For each initiative / action / programme, include its aims, objectives, beneficiaries, start date and end date. Demonstrate the global approach and ambitious vision for the future in improving accessibility in your city. Where possible, quantify the level or percentage of accessibility in the areas below. For example: percentage of accessible metro stations, work environments, number of vehicles, websites, buildings, public administration, etc.

Description of initiatives in the four areas of accessibility:

a) Accessibility of the built environment and public spaces

Please describe measures related to the city centre design, streets and pavements, parks, squares, monuments and open spaces, work environments, markets, festivals, and other outdoor events.

b) Accessibility of transportation and related infrastructures

Please describe measures related to the car parks, airports, railway stations and bus stations, taxis, trains, buses and trams, proximity, interconnectivity of public transport and journey information availability.

c) Accessibility of information and communication, including information and communication technologies

Please describe measures related to access to the city authorities' official information. For instance: accessibility of promotional multimedia information of the municipality, advice and citizen feedback procedures on the accessibility of the website, online information provision in arts, culture, entertainment, sport facilities, signage and guidance in public places, outdoor or indoor, tourist/visitor information, accessibility of the public information kiosks, provision of assistive technology and inclusive ICT resources for the whole community in public libraries and online centres.

d) Accessibility of public facilities and services

Please describe the public services provided by your city (social services, healthcare, youth, education, leisure and sport activities and facilities, culture, employment services, training, housing, etc.) and indicate to which extent they are accessible. Please illustrate how accessibility is considered and integrated in these services. Besides the specific services for persons with disabilities, please also provide information on how the general services are made accessible to persons with disabilities. You can give examples of alternative formats for e-gov services, as well as examples of services provided in multimodal way and by different channels.

C / OWNERSHIP / LEVEL OF COMMITMENT

a) Describe the overall approach to accessibility in your city and how you implement the policy in this area.

Please demonstrate the global policy on accessibility carried out in your city. For instance: inclusion of accessibility in a coherent strategy or policy framework, high-level policy statements and commitments to accessibility, mainstreaming in the city's policies and its regulations, structures or framework to implement/coordinate/monitor accessibility actions, responsible department(s), main actors involved, initiatives by private sector (if any), resources and staff allocated, monitoring and evaluation mechanism, information on a cost-benefit analysis of implementing accessibility (if any).

D / IMPACT

Please include quantitative and/or qualitative data to support the impact and effectiveness of your initiative + benchmark. You can upload (links to) documents, webpages or audio-visual material (films or pictures) that demonstrate the results and changes. The impact assessment must refer to initiatives mentioned in the Section "Scope of Initiatives".

a) How does/did the city's policy improve equal access and the quality of life of people with disabilities?

Please provide examples as well as qualitative and quantitative data. It is important to mention project(s) – if any - involving people with intellectual disabilities.

b) How do these initiatives benefit, beyond persons with disabilities, also wider parts of the population?

Please provide concrete examples.

E / QUALITY AND SUSTAINABILITY OF RESULTS

a) How do you ensure the quality and sustainability of accessibility measures?

The quality of results is defined in terms of improvements made to the level of accessibility and its compliance with standards and legislation. You may also indicate whether your initiatives are related to any local, regional, national, and European actions.

Delivering sustainable accessibility measures requires continuous efforts. There must be a sound structure and adequate monitoring mechanisms (regular checking, notifying and repairing problems, handling complaints, training on accessibility for municipal staff, etc.). Please present the monitoring and evaluation mechanisms set up in your city as well as the resources allocated.

b) What are your plans and initiatives to continue these efforts in the future?

Please describe and indicate the timeframe, if possible.

F / INVOLVEMENT OF PERSONS WITH DISABILITIES AND RELEVANT PARTNERS

a) Please describe the involvement of persons with disabilities and their representative organisations as well as accessibility experts in the planning, implementation and maintenance of the city's policies and initiatives aimed at increased accessibility.

Please describe these activities by providing examples. Where possible, please include the views of persons with disabilities on the accessibility of the city.

b) Do you carry out awareness raising or information activities around accessibility? Do you exchange, share experience and good practices with other cities at local, regional, national and/or European level?

Please give examples; you may also mention your membership in different kinds of organisations related to accessibility, etc.

c) Have you addressed disability in other initiatives undertaken by your city? If so, you may mention any initiative your city has worked on, even if it was not addressed directly to people with disabilities, as long as it included measures to improve accessibility or raise awareness about disability and accessibility.

Please describe these initiatives by providing examples and detailing the measures related to accessibility.

G / WHY DOES YOUR CITY DESERVE THE AWARD?

Please provide a short presentation of your overall accessibility policy and actions. Please explain why your results and your city's accessibility policy are extraordinary and why you believe your city deserves the Award.

Please state what your city is especially proud of. You may indicate what distinguishes your accessibility policy and which measures are especially worth to be promoted as good examples for other cities.

H / WHICH OF YOUR INITIATIVES TO IMPROVE ACCESSIBILITY ARE FOCUSED ON DEVELOPING ACCESSIBLE SPORTS INFRASTRUCTURE?

The Commission's Strategy for the Rights of Persons with Disabilities 2021-2030, in line with the United Nations' Convention on the Rights of Persons with Disabilities, states that accessible and inclusive culture, sport, leisure, and recreational activities are essential for full participation in society. They increase wellbeing and give everyone, including persons with disabilities, the opportunity to develop and utilise their potential.

The Council highlighted the importance in its conclusions on access to sport for persons with disabilities ([https://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:52019XG0607\(03\)](https://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:52019XG0607(03))).

Moreover, Europe will host the next Olympic and Paralympic Games, the most important international sports events for persons with and without disabilities. They will take place in Paris from 26 July to 11 August 2024, and from 28 August and 8 September 2024, respectively.

In this context, the Access City Award is looking for outstanding projects and initiatives that, when elaborating and showing their outstanding work on accessibility, reflect in an exemplary way the development of accessible sports infrastructure, while also placing the participation and vision of local communities and relevant stakeholders at the core of the process.

Examples may involve the physical transformation of places to improve accessibility. Applicants are invited to show, for example, how new, renovated or regenerated built environment and public spaces may contribute to the participation of persons with disabilities in sports.

Examples can also show how sports events, activities, processes, information and products can be more accessible. Such initiatives can also bring about a change of perspective towards the participation of persons with disabilities in sports.

The intention is to identify initiatives that address accessibility in sports in an outstanding manner.
